He was painting all day yesterday and strained a hlood vessel in his head which bursted after he had retired. Dr. Owens was called and remained with the patient for several hours. Mr. Lally is getting along as well as could be expected.

SCHOOL NOTES.

Report of Pleasant Hill (Spring-dale) District No. 37.

date) District No. 32;

The Trustees are John Eillott, C. P. Vawter and C. Moore. Teacher, Miss Bettle Bean. Number of scholars in attendance 31, which was very good. This District has long needed a schoolhouse, never having owned one before, but having the school taught in an old log church, which was hy no means suitable or comfortable. Therefore it was highly gratifying to find that the order of the Superintendent had been obeyed and a large commoditious schoolhouse, capable of accommoduling all the scholars who are likely to attend school, has heen creeted. The house is pleasantly located upon ground donated by John Elliott, who has taken much interest in the school and done much toward accomplianting the erection of such a handsome school and done much toward accompilating the creetion of such a handsome schoolhouse. It is well furnished and equipped and I found the school in fine working order. Miss Bean has bad speedal training for the profession and proves herself thoroughly competent as shown by the progress and daportment of her scholars, which were very satisfactory. G. W. Maysville has a new "City Direct

Mayerille has a uew "City Directory(?)"
We deem it advisable to tell you in the heginning that it is a "City Directory(?)"
for you would never know it in the world if someon didn't tell.
You might take it for a patent medicine pamphlet, with a few advertisements of husiness men of Mayaville.
To prevent you from doing this we give you grave and solemn warning that if you see a little hook with every tenth other word misspelled, with 1,098 names in, and hended "Please do not loan this book," you will know it is the new City Directory(?)
May the time soon come when we will he delivered from such fakes.

May the time soon come when we will be delivered from such fakes.

They are no good to man or beast, and the sooner our merchants censo to patronize such hold eases of imposition and ridiculous pieces of advertising, the better it will be for all concerned, and the sooner we will have cause to regiote for a grand deliverance. We will be delivered of an advertising fake that is as injurious as it is unfair.

The author of this new "City Direct oxy(f)" says in his "preface:"
"Ir compiling this Directory I have spared neither time nor means."
Well, now, be didn't need to say that. The book itself shows he has spared no time on it.

Then the author says:
"I think the Repubbles will sustain my though, it is an accurate manual of the city."

thougat, it is a section of this part of it at least. We really do not think that such au "intellectual star" can entertain such a thought. You are certainly not foolish enough to think it an "accurate manual".

Mayaville has a population of over
8,000; you have 1,068 names in your book
and many of them are repeated. Not
1,000 names of individuals are published 1,000 names of individuals are published in your Directory(r). You certainly haven't the nerve to ask us to "sustain your thought?" But then a person who has nerve enough to publish over his name such a book as the "City Directory," and cell it an "accurate manual," has nerve enough to do almost anything ance.
